

# MUTHUSELVI THANU

(AUTHORIZED TO WORK IN USA, NO SPONSORSHIP REQUIRED)

## ABOUT ME

I am a housewife and mother of seven-year-old girl. Getting to IT sector is something I always wanted to do. For the past one year, I have been learning different technologies with my husband's help and guidance. I think now I am ready to take the next step forward. I learned different technologies and got certified to prove that I can take up any work, learn and research about it and get it done. Given an opportunity, I am confident that I will work hard and shine well.
